

Seesaw Application

1. Download Seesaw Class App via Apple App Store (Iphone) or Play Store (Android devices).
2. Open the application and login as a student using the 16 code received via your email.
3. You should now be on your child's journal. To access children's work, please click activities at the bottom of your screen. This will give you access to your child's work.
4. To complete the work, click add response. This will take you to one of the following screens (1 – Post to student journal / 2 – Activity Worksheet)

text

Screen 1 – Post to student journal

Screen 2 – Activity worksheet

5. This will now allow you to send your child's work back to their class teacher. On screen 1 you can: Take a photo or video, upload a photo or video, upload a document, write a note or complete a drawing.

On screen 2 you will be able to view the children's worksheet, this can be completed on the drawing setting or alternatively if your child is completing their work using a booklet or piece of paper a photo or video can be taken and uploaded by clicking the camera tool (please see image below).
