

To support your child's maths at home, you can try:

<https://trockstars.com/>

The link above will take you to 'Times Table Rockstars'

The children have access to this from Year 2 upwards to support their times tables. They have an individualised log in that is sent out at the start of each school year. If you aren't sure on the log in, please ask the class teacher who will gladly help!

<https://www.topmarks.co.uk/maths-games/>

<https://mathsframe.co.uk/en/resources/category/22/most-popular>

<http://www.crickweb.co.uk/ks2numeracy.html>

All of the above websites have a huge array of games, suitable for across KS1 and KS2. Many of the games on 'Topmarks' and 'Maths Frame' are also accessible on tablets or mobile devices. The games cover topics from basic single digit additions, all the way up to fractions!

Another cheap and easy way to encourage children to use their maths skills away from a screen is a deck of cards. The link below gives you just some examples of how they can be used. Key Stage 2 children should also keep an eye out for 'Cards Club' in the Summer term, where they'll be taught some of these games, and many more!
